Research Interests

I study how non-coding transcription, chromatin accessibility and transcription-factor regulatory networks shape gene expression during plant developmental transitions and responses to environmental cues. My work integrates genome-wide profiling (ATAC-seq, csRNA-seq, single-cell multi-omics) with targeted molecular genetics and the development of performant open-source software. As an independent researcher I aim to dissect the cis-regulatory logic that governs cell-state transitions in plants, leveraging scalable computational tools I build and release to the community.

Education

Centre for Research in Agricultural Genomics / Autonomous University of Barcelona **Spain**
PhD, Plant Biology and Biotechnology (Cum Laude) *2020–2024*
Supervisor: Dr. Julia I. Qüesta.
Thesis: *Non-coding regulation of transcription during plant development.*
International Doctorate Mention (doctoral work performed partly outside Spain, with external expert endorsement).

University of Waterloo **Canada**
MSc, Biology *2016–2019*
Supervisor: Prof. Barbara A. Moffatt.
Thesis: *Investigating the impact of 5'-methylthioadenosine accumulation in* Arabidopsis thaliana.

University of Waterloo **Canada**
BSc, Honours Biology *2012–2016*
Undergraduate thesis supervisor: Prof. Barbara A. Moffatt.
Thesis: *Altered 5'-methylthioadenosine metabolism affects lipid homeostasis and hormone regulation in* Arabidopsis.

Research Positions

Nobori group, The Sainsbury Laboratory **Norwich, UK**
Postdoctoral Scientist *Aug 2024–present*
Mentor: Dr. Tatsuya Nobori. Single-cell multi-omic profiling of active regulatory elements during plant immunity in *Arabidopsis*.

Team ChromD (Moussa Benhamed), Institute of Plant Sciences Paris-Saclay **Gif-sur-Yvette, France**
International PhD Secondment *Feb–May 2024*
Host: Dr. David Latrasse. Collaborative work on plant chromatin biology and 3D genome regulation.

Epigenetics and Plant Development Group, CRAG **Barcelona, Spain**
PhD Student *Sep 2020–Jul 2024*
Supervisor: Dr. Julia I. Qüesta.

Epigenetics and Plant Development Group, CRAG **Barcelona, Spain**
Research Assistant *Feb–Aug 2020*
Supervisor: Dr. Julia I. Qüesta.

Doxey Lab, University of Waterloo **Canada**
Bioinformatics Research Assistant *Jan 2019–Jun 2020*
Supervisor: Prof. Andrew C. Doxey.

Moffatt Lab, University of Waterloo **Canada**
MSc Student *Jan 2016–Jan 2019*

Hell Lab, Heidelberg University — **Germany**
Ontario/Baden-Württemberg Summer Research Student — *May–Aug 2016*
Supervisor: Dr. Markus Wirtz.

Moffatt Lab, University of Waterloo — **Canada**
Honours Thesis Student — *Jan–Dec 2015*

Fellowships, Scholarships and Awards

BBSRC Early Independence Fellowship
shortlisted lead applicant, invited to the full stage — *2026*

International Doctorate Mention — **Spain**
Autonomous University of Barcelona — *2024*
For doctoral work performed partly outside Spain, with two supporting letters from external experts.

FPI Doctoral Fellowship (EUR 98,250) — **Spain**
Ministry of Economy, Trade and Enterprise — *2020–2024*
Four-year competitive PhD grant under the National Programme for the Promotion of Talent and its Employability.

Dean of Science Award — **Canada**
University of Waterloo — *2019*
Awarded annually to one student per academic unit in the Faculty of Science for outstanding performance and creative research in the MSc programme.

Summer Research Scholarship ($3,500)
Ontario/Baden-Württemberg Summer Research Program — *2016*
Competitive research exchange scholarship for students in Ontario, Canada and Baden-Württemberg, Germany.

President's Entrance Scholarship ($1,000) — **Canada**
University of Waterloo — *2012*

Training

EMBO Lab Leadership for Postdocs — **Norwich, UK**
John Innes Centre — *2025*

Non-coding Genome (11th edition) — **Paris, France**
Institut Curie — *2022*

Network Analysis and Modeling — **Barcelona, Spain**
Centre for Research in Agricultural Genomics — *2022*

Publications

21 peer-reviewed publications (10 first or co-first author, 3 corresponding), 1 book chapter, 1 preprint. Full list on Google Scholar. Author symbols: * co-first author; # co-corresponding author; + corresponding author.

Preprints

1. Cameron, E.S., **Tremblay, B.J.M.**, Yahr, R., Blaxter, M.L., and Finn, R.D. (2026). Transposable element diversification and the evolution of Peltigerales lichen symbionts. *bioRxiv*. doi:10.64898/2026.02.14.705750

First-author peer-reviewed publications

2. Ormancey, M.*, **Tremblay, B.J.M.***, Cheng, Y.*, Praat, M., Antoniou-Kourounioti, R.L., Krumbach, J., van Zanten, M., and Qüesta, J.I. (2026). Autumn–winter progression triggers distinct transcriptional programmes in *Arabidopsis thaliana*. *Genome Biology*. doi:10.1186/s13059-026-04289-3
3. **Tremblay, B.J.M.+**, Adeel, S.A., Saechao, M., Dong, Y., Andrianasolo, E., Steele, J.M., Traa, A., Yogadasan, N., Waduwara-Jayabahu, I., Katzenback, B.A., Hell, R., Wirtz, M., and Moffatt, B.A. (2026). Methylthioadenosine-driven rewiring of sulfur assimilation lowers the methyl index and fertility in *Arabidopsis*. *Journal of Experimental Botany* 77, 6209–6223.
4. **Tremblay, B.J.M.#**, and Qüesta, J.I.# (2024). quaqc: efficient and quick ATAC-seq quality control and filtering. *Bioinformatics* 40, btae649.
5. **Tremblay, B.J.M.+** (2024). universalmotif: an R package for biological motif analysis. *Journal of Open Source Software* 9, 7012.
6. **Tremblay, B.J.M.**, Santini, C.P., Cheng, Y., Zhang, X., Rosa, S., and Qüesta, J.I. (2024). Interplay between coding and non-coding regulation drives the *Arabidopsis* seed-to-seedling transition. *Nature Communications* 15, 1724.
7. **Tremblay, B.J.M.**, Lobb, B., and Doxey, A.C. (2021). PhyloCorrelate: inferring bacterial gene-gene functional associations through large-scale phylogenetic profiling. *Bioinformatics* 37, 17–22.

Software Tools and Databases

- **universalmotif**: R/C++ package for the analysis and manipulation of biological sequence motifs, with Rust and Python versions. Over 150,000 downloads from Bioconductor and Bioconda since 2018. Sole maintainer. (Tremblay, 2024) https://bioconductor.org/packages/universalmotif
- **quaqc**: fast quality control and filtering of ATAC-seq data, written in C with scalability in mind; companion R package **quaqcr** on CRAN. (Tremblay# & Qüesta#, 2024) https://github.com/bjmt/quaqc
- **csRNAseq_pipeline**: Snakemake pipeline (Bash/Python/R) for capped-small RNA-seq data, from raw FASTQ files to analysed transcription start sites. (Nobori Lab) https://github.com/noborilab/csRNAseq_pipeline
- **bfqutils**: high-performance C toolkit for trimming, merging and analysis of FASTQ files. (Nobori Lab) https://github.com/noborilab/bfqutils
- **tssUtils**: R package for the analysis of TSS sequencing data. (Nobori Lab) https://github.com/noborilab/tssUtils
- **bam2td**: builds HOMER tag directories directly from SAM, BAM or CRAM files (C). (Nobori Lab) https://github.com/noborilab/bam2td
- **TAIR12 blacklist**: problematic high-signal regions of the TAIR12 *Arabidopsis* assembly for filtering ATAC-seq and ChIP-seq data. (Tremblay & Nobori, 2026) doi:10.5281/zenodo.20084760
- **yamtk**: high-performance C toolkit for genome-scale transcription factor binding site scanning and enrichment. https://github.com/bjmt/yamtk
- **bwtk**: C toolkit for converting, merging, subsetting and transforming bigWig and bedGraph files. https://github.com/bjmt/bwtk
- **msaviz**: R package for visualising large multiple sequence alignments. https://github.com/bjmt/msaviz
- **PhyloCorrelate** and **phylocorrpkg**: functional predictions from phylogenetically co-occurring gene and protein families, as a web database and a stand-alone R package. (Tremblay et al., 2021) https://phylocorrelate.uwaterloo.ca
- **DiffBase**: online database of *C. difficile* toxins. (Mansfield*, Tremblay* et al., 2020) https://diffbase.

uwaterloo.ca

- **PathFams**: online database of pathogen-association predictions for protein families. (Lobb et al., 2021) https://pathfams.uwaterloo.ca
- **mirlyn** (co-author): R package implementing amplicon library size normalisation strategies for diversity analysis. (Cameron et al., 2021) https://github.com/escamero/mirlyn

Mentoring and Student Supervision

Revocatus Byanyuma-Bahitwa — **Nobori group, The Sainsbury Laboratory, UK**
PhD rotation student mentor — *2026*

Vidyashree Shivakumaraswamy — **Nobori group, The Sainsbury Laboratory, UK**
Predoctoral intern mentor — *2024–2025*

Cristina P. Santini — **Qüesta Lab, CRAG, Spain**
MSc thesis co-supervisor — *2022–2023*
Thesis: *Characterization of antisense long non-coding RNAs underlying* Arabidopsis *germination and early seedling development*.

Saeer Adeel — **Moffatt Lab, University of Waterloo, Canada**
Honours thesis mentor — *2018–2019*

John Steele — **Moffatt Lab, University of Waterloo, Canada**
Honours thesis mentor — *2016–2017*

Teaching Experience

Lecturer (graduate level) — **Spain**
Autonomous University of Barcelona — *Jan 2023*
MO58139: Molecular basis of plant development and responses to the environment (Week 2: Embryo development, germination and dormancy; Week 6: Epigenetics in development).

Laboratory Teaching Assistant (undergraduate level) — **Canada**
University of Waterloo — *2014–2018*
BIOL 120: Introduction to plant structure and function; BIOL 130L: Cell biology; BIOL 323: Plant physiology; BIOL 325: Flowering plants; BIOL 428: Plant molecular genetics.

Tutorial Teaching Assistant (undergraduate level) — **Canada**
University of Waterloo — *Sep–Dec 2013*
BIOL 309: Molecular biology techniques.

Academic Service and Outreach

Assistant Features Editor
Plant Physiology — *2026–2028*

American Society of Plant Biologists (ASPB)
Member — *2026–present*

British Society for Plant Pathology (BSPP)
Member — *2026–present*

Ad hoc peer reviewer — *ongoing*
The Plant Cell, *BMC Bioinformatics*, *BMC Genomics*, *BMC Plant Biology*, *Genome Biology*, *Plant Direct*, *Bioinformatics Advances*, *PeerJ*.

European Researchers' Night (volunteer) **Barcelona, Spain**
CosmoCaixa *Sep 2021*
Public engagement with elementary school-age children on why we study the model plant *Arabidopsis thaliana*.

Biology Graduate Symposium (judge) **Canada**
University of Waterloo *Apr 2019*

Science Open House (volunteer) **Canada**
University of Waterloo *2015–2017*
Guided elementary school-age children through plant-themed teaching stations.
